

Discount Limit

Dss

To install Magento 2 Discount Limit extension:

Step 1: Unzip the file.

Step 2:

Create a new directory: `app/code/Dss/DiscountLimit`. DiscountLimit is the module's internal identifier which can be found in the "composer.json" file of the downloaded compressed file. (Please see node "psr-4").

Step 3:

Upload to root file of your Magento installation to have this directory `rootfile/app/code/Dss/DiscountLimit`. The Magento root directory contains directories such as "app", "bin", "lib" and more. All directories should match the existing directory structure.

Step 4:

Go to Magento 2 root directory. Enter command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

1.) How It work?

With this extension, the store admin can set the upper limit (maximum discount) for any percentage-based cart rule.

Some use cases:

- Flat 10% OFF, up to 50\$
- 10% OFF for first order, up to 25\$

Module configuration:

Navigate to Stores ⇒ Configuration ⇒ Dss ⇒ Discount Limiter and find the module.

General configuration:

General Settings

Enabled <small>[store view]</small>	Yes	▼
Debug Mode <small>[store view]</small>	No	▼

- **Enabled:** Choose **Yes** to enable the extension, choose No to disable. If extension is enabled, then as per your discount rule **Max Discount Amount** will be applied on discount.
- **Debug Mode:** Choose **Yes** to enable debugging on module.

How to Use maximum discount feature?

Navigate to Marketing ⇒ Cart Price Rules ⇒ Add New Rule.

New Cart Price Rule

← Back Reset Save and Continue Edit **Save**
